La cultura del progetto

Agape viene fondata nel 1973 dalla famiglia Benedini. 40 anni di attività nel settore bagno durante i quali due fratelli, entrambi architetti, si sono succeduti alla guida dell'azienda. Giampaolo, designer di molti dei prodotti di maggior successo, è una figura chiave per l'innovativa interpretazione della stanza da bagno: da luogo funzionale a spazio fondamentale dell'abitare contemporaneo. Emanuele, dagli anni '90 alla direzione, è riuscito a mantenere coerente nel tempo l'estetica delle collezioni, continuando a dare spazio ai prodotti disegnati dal fratello e selezionando progettisti internazionali tra i più interessanti ed importanti. Ha inoltre guidato l'azienda verso l'internazionalizzazione portando Agape in tutto il mondo con un fatturato export intorno al 70% del fatturato totale. Agape per prima ha proposto una gamma completa di prodotti e accessori per arredare la stanza da bagno, intesa come spazio architettonico.

Design culture

Agape was founded in 1973 by the Benedini family. During these 40 years of experience in the bathroom sector the two brothers, both architects, have taken turns in running the business. Designer of many of the company's most successful products, Giampaolo has played a key role in creating new concept of bathroom: from indispensable room to fundamental part of contemporary living. Since the 1990s Emanuele has been responsible for running the company, successfully keeping the beauty of the collections constant; giving space to the products designed by his brother as well as individuating some of the most interesting designers currently on the international scene. He has given the company international status, producing an export turnover of approximately 70% of the total. Agape was the first to offer a complete range of products and accessories for the bathroom, conceived as an architectural space.
